The magnitude of the property and The magnitude of the property and large amount of money required to maintain it may be inferred from the fact that its employes number over a hundred, that it has 250 guest rooms which will accommodate double that number of patrons and that it is the only hotel property of its kind in the state, excepting Philadelphia and Pittsburg. Other Pennsylvania cities of the same, or nearly of the same, size as same, or nearly of the same, size as same, or nearly of the same, size as Scranton possess what are advertised to be modernly constructed and modernly arranged hotels, but they are no more to be compared with the Hotel Jermyn than to the biggest, best and most elegantly furnished houses of Philadelphia.

That Is the Latest Production of the Political Prophets.

REASON THAT HE IS TAKEN UP

The Only Thing Needed to Complete th Story Is Confirmation by the Mayor and That He Witholds-Says It Is Idle Rumor,

Andrew P. Bedford for chief of police. That's the latest prediction of the political prophets.

"It's just this way," said one of the prophets in conversation with a Tribune reporter yesterday. "You know Mayor Bailey wanted to appoint Frank Robling to the position of chief of police, and he would do it yet if his political friends would stop bullying him. He thinks Robling would make a very good chief, and, besides, the appointment would please his friends, the Roblinsons and others. At the same time it would highly displease a very large and powerful contingent of his friends and he cannot afford to risk, at the beginning of his administration, the complications that would ensue with Robling

rations that would ensue with Robling at the head of the police department.

"Joe Taylor is a comparative stranger to him, but has been most warmly endorsed by a large number of the party leaders, and if the mayor had announced his appointments Monday, I think Taylor would have been landed in the office of chief. Unfortunately, for that gentleman, nervous prostration attacked the mayor and he was too ill to decide upon his appointments for Monday. That gave the opponents of Taylor an opportunity to work and they took advantage of it. Now it looks as if Taylor will suffer the same fate as Robling and be dropped.

"That will make a new man neces-sary, and that man will be Andrew Pinkerton Bedford. He is not anxious Pinkerton Bedford. He is not anxious for the office, for it's not exactly in his line, but he's a warm friend of Mayor Bailey, and if his acceptance of the office would let the mayor out of a tight place. I am sure that he would be willing to don the biue. I understand that the thing has been decided upon and that the office of chief will be tendered to Mr. Bedford and that the

So much for the prophet.
A Tribune reporter interviewed May-or Balley last night as to the likeli-hood of Mr. Bedford being tendered the office of chief.

hood of Mr. Bedford being tendered the office of chief.

"No one has been decided upon as yet for that position," was the way the mayor answered the interrogation.

When told of the story that was in circulation concerning Mr. Bedford, he said that it was merely idle rumor, and had no foundation in fact. The mayor said he intended to go to New York said he intended to go to New York today and will remain there until Monday. He goes for a rest and on his re-turn will take up for consideration the matter of making appointments.

NUMEROUS DEPRESSIONS. Street Commissioner Kinsley Was Kept Busy Fixing Streets Yesterday.

There was a cave-in on Mulberry street in the neighborhood of Harrison avenue yesterday morning sometime before daylight, which caused a circu-lar depression, twenty feet in diameter. Street Commissioner Kinsley is at a loss to explain what caused the cave-in, but thinks it resulted from a break in the sewer. He will excavate today to ascertain, whether it is the sewer or to ascertain, whether it is the sewer or whether it is caused by a mine settling. Complaint was also made yesterday of two dangerous holes in Washburn street between Main avenue and the Oxford breaker. These will also be attended to today.

A broken water main on Railroad street near the corner of Luzerne caused a sinking of the surface which kept the gas and water company's men and one of the street commissioner's gangs busy for a good part of the
